PROSPECTIVE PATIENT INFO

It is our commitment to offer the highest quality orthopedic care. We have an experienced and professional team assembled for your orthopedic health care needs. Dr. Davidson and his staff want you to be an active participant in your care, striving toward optimal outcomes and making knowledgeable health care decisions. We are devoted to helping you achieve an active and healthy lifestyle by providing the best and most current treatments for your orthopedic condition.

Dr. Davidson sees new patients for all varieties of problems related to the knee and shoulder. He provides second opinion evaluations and often sees patients that have unresolved orthopaedic problems. Many patients seek treatment with Dr. Davidson for their knee or shoulder problem when they have been told that there is little hope or no treatment options to resume an active lifestyle.

Dr. Davidson is presently accepting new patients.

Out of Town Patients, Coming to Utah for treatment: Many patients come to treat with Dr. Davidson from outside of Utah and from other countries. We have organized logistics to support coming to Park City or Salt Lake City for surgery. The arranged services include: transportation, lodging, outpatient and inpatient surgical services, “home” or hotel based nursing, “home” or hotel based Physical Therapy, and coordinated care with health care providers near home. We also maintain a roster of recreational opportunities for accompanying family members. Park City and the Salt Lake area are beautiful to visit year round, with affordable options to choose from. Please contact us to learn more about coming to Utah for treatment with Dr. Davidson.
